## PROFILE

Dynamic and innovative Front End Developer with 2 years of experience designing and implementing high-quality, responsive web applications. Proficient in TypeScript, React, and Next.js, with a strong foundation in modern JavaScript frameworks and libraries. Adept at working in fast-paced startup environments, delivering robust solutions under tight deadlines. Knowledgeable in back-end technologies, including AWS and DynamoDB, enabling seamless integration and full-stack development.

## EMPLOYMENT HISTORY

### Software Platform Developer at Openscreen, Toronto, ON

April 2022 — Present

- Developed responsive and interactive user interfaces using React.js, enhancing user experience and engagement across multiple web applications.
- Implemented state management solutions with Redux and Context API, ensuring efficient data flow and state consistency across components.
- Utilized React Router to create dynamic routing in single-page applications, improving navigation and user interaction.
- Optimized application performance by employing code-splitting, lazy loading, and memoization techniques, resulting in faster load times and improved user satisfaction.
- Collaborated with UX/UI designers to translate wireframes and prototypes into high-quality, pixel-perfect interfaces, maintaining design consistency and accessibility standards.
- Applied modern CSS frameworks such as Tailwind CSS and styled-components to create maintainable and scalable styles, adhering to design system guidelines.
- Participated in Agile development processes, including sprint planning, daily stand-ups, and retrospectives, contributing to efficient project management and timely delivery of features.
- Implemented best practices for code quality and maintainability, including code reviews, pair programming, and continuous integration/continuous deployment (CI/CD) pipelines.
- Leveraged Git for version control and collaboration, facilitating smooth teamwork and streamlined code management across development teams.
- Developed custom hooks and reusable components to streamline development workflows and promote code reusability, reducing development time and effort.

### Aerospace Technical Sales and Estimation Manager at All Custom Gasket and Materials, Mississauga, ON

February 2021 — March 2022

### Estimator at Muir Tapes and Adhesives, Oakville, ON

November 2017 — February 2021

## EDUCATION

### MSc Automotive Engineering, Oxford Brookes University, Oxford, England

September 2011 — September 2012

### BSc Mechanical Engineering, Universidad del Zulia, Maracaibo, Venezuela

March 2006 — December 2011
